

Sun Fook Kong Actively Participated in "Marvel 10K Weekend 2017" again

On 16 and 17 September, 2017, Hong Kong Disneyland held its signature running event "Marvel 10K Weekend 2017", and it invited the public to run in the campus of Hong Kong Disneyland for Cleff Lip and Palate to provide support services for patients with cleft lip, palate and their parents. Sun Fook Kong actively participated in this meaningful event again and encouraged staff to do more exercise and to achieve work-life balance.

All runners from Sun Fook Kong and their family members posted a group photo after the event.

Around 50 Sun Fook Kong Staffs took part in the 10K Run and 3K Family Run of "Marvel 10K Weekend 2017" on 17 September. Marvel Super Heroes had showed up to cheer for the runners. Most of Sun Fook Kong Staff participated in the event with their families and enjoyed a healthy and fruitful day together.

Sun Fook Kong always concerns about its employees' well-being and encourages them to participate in leisure activities and use the spare time constructively.

Sun Fook Kong Successfully held Internship Session

Sun Fook Kong collaborated with the Tuen Mun District Office and Youth Activities Committee in the "Strive for Success" Tuen Mun District Self-Enhancement Training Programme and Award Scheme to hold two internship sessions for secondary students during the summer holiday. Two sessions lasted for totally four days. Sun Fook Kong prioritizes creating positive impacts on society and helping future generations by giving students an opportunity to explore their passions and strengths through work experience.

Senior Management of SFK Construction, staffs from Tuen Mun District Office and Youth Activities Committee and those participated students posed for a group photo.

A total of nine Form 4 and 5 students participated in the four-day internship sessions. The students were briefed on the administrative work and gained valuable hands on experience via working in an office environment. The interns also learnt about the document control system including data inputting and processing and how to operate office machines such as commercial printers and scanners.

Apart from arranging internship programs with social service organization, Sun Fook Kong also implements an internship program for our staff's children who can not only make good use of their summer vacations and enrich their knowledge; but also have a better understanding on their parents' work and their working environment. Thus, the parent-child relationship could be further fostered.

Sun Fook Kong believes that social sustainability can be enhanced through training the next generation to acquire valuable skills and knowledge. Sun Fook Kong emphasizes helping future generations succeed by actively participating in employment expos to recruit new graduates and as a support to the upcoming generation. Through the implementation of the internships programs for youth, Sun Fook Kong aims at contributing back to the community by training future generations to succeed in the workforce. Sun Fook Kong will continue to invest in youth activities to encourage and support future generations.

Actively Fulfill Social Responsibility Sun Fook Kong encourages our staffs to contribute back to society

Sun Fook Kong and NAAC Shamshuipo District Elderly Community Centre have jointly held a Mid-autumn Festival Visit with approximately 30 volunteers participated in this event. The visit provided a chance for the volunteers to share the joy of Mid-autumn Day with the elderly living alone or sharing a dorm.

Volunteers of Mid-autumn Festival Visit posted a group photo.

Recycles mooncake boxes

The elderly can experience the festive season and caring by the society with the receipt of mooncakes and the visit from volunteers. Apart from that, the Group has also cooperated with Greeners Action to recycle mooncakes and mooncake boxes, the activity of which has been actively responded by our colleagues to enhance environmental protection.

In future, Sun Fook Kong will continue to organize various community social work activities with social welfare organizations with an aim to encourage our staff to make contributions to the society and support environmental protection.

Sun Fook Kong Scholarships provide opportunity to employees' sons and daughters

Caring for employees and their families is one of the top priorities for the SFK Group, and our employees' children have benefited from this belief. The Group strongly believes the importance of education to the pillars of the next generation in our society. The Sun Fook Kong Scholarship Scheme was established in 2010 and has since helped 18 children of employees.

Management of Sun Fook Kong posed a photo with Tse Tze Sing, Phoenix (middle).

Mr. Tse Kum-Yuen, Ivan has been working in construction team at SFK for more than 14 years. His son, Tse Tze Sing, Phoenix, is currently studying Space Science and Technology Postgraduate Degree at the University of Cambridge. He chose this major according to his own preference. He expressed that receiving the scholarship is a kind of recognition. More than that, it's undoubtedly a shot in the arm for his learning path in the future. Phoenix strongly believes the importance of achieving balance between study and life behind the hard work. He earnestly recommended to the students who are preparing to take public examination, "Intensive learning does not require giving up all personal interests, as long as you have tried your best without any regrets. After establishing the accurate values, pressure can be transferred into positive energy." He expects to focus on research in the future and probably engaged in teaching to contribute back to the community."

Senior management of the Group maintained that, "Students received remarkable achievements will not only take advantage of the campus atmosphere to gain knowledge but also participate in extracurricular activities and volunteer works in order to give back to society. Our summer internship program provides opportunities for students to enrich life experience, which will be beneficial to those with potential to be a leader in the future."
